Note: See Note, table 3.106. These figures are aggregated from individual State statistics presented in table 3.108. These data include estimated offense totals for agencies submitting less than 12 months of offense reports (Source, p. 369). Complete data for 1995 were not available for Illinois, Kansas, and Montana; crime counts for these States were estimated by the Source. For definitions of offenses and areas, see Appendix 3.

^bViolent crimes are offenses of murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

^cThe percentage representing area actually reporting will not coincide with the ratio between reported and estimated crime totals, since these data represent the sum of the calculations for individual States that have varying populations, portions reporting, and crime rates.

^aPopulations are U.S. Bureau of the Census provisional estimates as of July 1, 1995 and are subject to change.
